[www.phreatic.org](http://www.phreatic.org)  

Phreatic Organization is a non-profit organization that relies on the generous support of donors and contributors.

As our mission continues to evolve and expand, we are actively involved in organizing more projects, supporting citizen science, and striving to enhance the impact of our initiatives. To accomplish these goals, we seek ways to cover essential operational costs and procure necessary assets related to project management.
